- iv) Water is so gentle.

We instinctively turn to outdoor activities and nature as a way of relaxing and enhancing our wellbeing. Nature soothes and nurtures. Nature fulfils and motivates. Nature whispers and commands.

Are you listening ?

When I do, it leaves me in complete awe. We have a hibiscus plant in our garden. Every fortnight a flower blooms on it-big, bright and tender. Through the day it smiles with the sun and dances with the wind, but as evening approaches, it starts wilting. The morning after, it withers completely and by evening it falls and becomes one with the earth again. The flower comes to life only for a day, yet it does so in full splendour. What if we too lived our life, however short, to its fullest?

We went to a rocky beach and saw the spread of the majestic ocean and the rocks alongside, carved, sculpted and shaped by the water. Water is so gentle, rock so hard, yet, as the water flows over it every day, for years, the rock gives in. It takes the shape that the water commands. Our problems are so colossal and we are so small, yet if we persist...

We saw small bits of grass peeping through the small cracks in a concrete pavement. It left us thinking: however impossible things may look, there is always an opening...

I talked with him, he seemed so calm, and if I were late, it would do no harm,

A Teenager's Prayer

The road that I will take.

I can choose to take the road of life,
That leads to great success
Or travel down the **darkened** road,
That leads to great **distress**.

Please open up my eyes, dear Lord,
That I might clearly see
Help me stand for what is right,
Bring out the best in me.

Help, Lord, to just say "no"
When **temptation** comes my way,
That I might keep my body clean
And fit for life each day.

When my teenage years are over,
I know that I will see
That life is lived its very best
With you walking next to me.

A1. Answer the following.

i) The zones where dozens of ships and aeroplanes have disappeared – _____

ii) The area that Bermuda Triangle covers – _____

iii) The person who sailed through the area on his first voyage to the New world – _____

iv) The people who became disoriented while flying over the Bermuda Triangle - _____

The Bermuda Triangle is a mythical section of the Atlantic Ocean roughly bounded by Miami, Bermuda and Puerto Rico where dozens of ships and airplanes have disappeared. Unexplained circumstances surround some of these accidents, including one in which the pilots of a squadron of U.S. Navy bombers became disoriented while flying over the area; the planes were never found. Other boats and planes have seemingly vanished from the area in good weather without even radioing distress messages. But although myriad fanciful theories have been proposed regarding the Bermuda Triangle, none of them prove that mysterious disappearances occur more frequently there than in other well-traveled sections of the ocean. In fact, people navigate the area every day without incident.

The area referred to as the Bermuda Triangle, or Devil's Triangle, covers about 500,000 square miles of ocean off the south eastern tip of Florida. When Christopher Columbus sailed through the area on his first voyage to the New World, he reported that a great flame of fire (probably a meteor) crashed into the sea one night and that a strange light appeared in the distance a few weeks later. He also wrote about erratic compass readings, perhaps because at that time a sliver of the Bermuda Triangle was one of the few places on Earth where true north and magnetic north lined up.

In all probability, however, there is no single theory that solves the mystery. The U.S. Coast Guard says: "In a review of many aircraft and vessel losses in the area over the years, there has been nothing discovered that would indicate that casualties were the result of anything other than physical causes. No extraordinary factors have ever been identified."

A2. What did Christopher Columbus report after sailing through the Bermuda Triangle?
